

Technical drawing of a mechanical part, likely a bracket or base plate, shown in a top-down view. The part is defined by a blue outline on a white background. It features a large rectangular central area with rounded corners. The bottom edge of this central area is notched out, forming a U-shape. Two small circular holes are located within this notched section. To the left of the main body, there is a small, angled protrusion. A dimension line is drawn vertically on the right side of the part, indicating a height of 210mm.
